Introducing MapInfo Professional 9.0

We are delighted to announce the imminent launch of MapInfo Professional 9.0. The official launch date for English Language MapInfo Professional is 15th June 2007. For clients on the Annual Maintenance Program, you will receive your new release in the post shortly after this date.

MapInfo Professional version 9.0 is the latest release of the most powerful yet easy-to-use desktop location intelligence solution available. MapInfo Professional version 9.0 enables you to accelerate your analysis through an assortment of new features:

New direct access to CAD and GIS data formats

Leverage new, time-based analysis capabilities

Create better looking maps using new templates, fonts and curved labelling

Increase your productivity by using wizard-based processes and new preference settings

Free MapBasic - MapBasic is a powerful programming language that enables customisation of MapInfo Professional to create specific applications to suit users needs.
