

MapInfo Professional 9.0.1 Patch Released

Pitney Bowes Software has made version 9.0.1 of MapInfo Professional available to download. Registered users of MapInfo professional version 9.0 can download the patch for free by from the Help menu, by selecting > Check for Update.

The patch release addresses a number of known issues with Licence Registration and improving the raster handling tools. This has improved support for many raster image formats, including:

JPEG

JPEG2000

ECW

GeoTIFF
